EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jerry Yetter on 4/29/05.

The application has been amended as follows:

The Claims:

Cancel claim 5.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Note that, Applicant's amendment, Applicant's arguments, and the Examiner's Amendment are sufficient to place the instant claims in condition for allowance.

Of the references of record, the most pertinent is Smith et al (US 5,164,121). Smith et al teach a pourable amine which is obtained by reacting a tert-amine with aqueous hydrogen peroxide in a normally liquid polyethylene glycol as the sole organic solvent. However, Smith et al do not teach the use of 1,4-cyclohexanedimethanol in the process of making a surfactant premix as recited by the instant claims.

None of the references of record, alone or in combination, teach or suggest a process for making a surfactant premix comprising an amine oxide surfactant and 1,4-cyclohexanedimethanol by using the specific process parameters as recited by the

instant claims. Accordingly, since the prior art fails to teach or suggest such a process as recited by the instant claims, the instant claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
